THE INDUSTRY GET-TOGETHER FOR CIRCULAR ECONOMY

Refined profile.
High quality of contacts.
Your platform.
Your event.
terratec will now open its doors with a more distinct profile as trade fair for waste management, circular economy and protection of environmental resources from April 5 – 7, 2017 in Leipzig. By doing so, terratec is actively responding to the developments taking place on the environmental market and thus meeting the request expressed by market stakeholders for an industry forum with a high level of quality contacts.

**NEW FOCUS. NEW QUALITY. NEW DATE.**

**YOUR ADVANTAGES IN LEIPZIG:**

**Ideal conditions:** Outstanding customer service with individual support and an interesting program of supporting events create the ideal atmosphere for a personal dialog. The modern exhibition center with its optimum infrastructure and uncomplicated layout ensures a focused trade fair experience.

**Effective concept:** The terratec brings together industry players and stakeholders. The close integration of exhibition, specialized program and events, and the professional networking of stakeholders and industry activities promote intensive contact between exhibitors, program organizers and visitors as well as decision-makers representing industry and politics.

**THAT IS THE terratec 2017:**

**Focus on circular economy:** The trade fair focuses on measures, activities and ideas for furthering and promoting recycling management, with particular attention directed to technologies and services geared for waste disposal – from collection, processing and recycling through to landfilling. The range of areas offered is completed with topics of high priority like waste prevention and efficiency in terms of use of raw materials as well as the sustainable management of natural resources.

**Presentation with reach:** terratec is the platform for networks and initiatives that focus on recycling, circular economy and resource management and characterized by nationwide and international presence. And Leipzig as location offers the optimal framework conditions.

**terratec – the event for waste management, circular economy and resource efficiency in Leipzig!**
On the road to success in Leipzig: With its new focal points waste management, circular economy and protection of environmental resources, the terratec represents for companies the ideal platform for networking, exchanging information and experience and developing business relations.
